Concerns Continue with U. S. Government Printing Office Workflow to Private Sector *Top 50 GPO Suppliers List for 2nd Quarter 2009 published*

CHAMBERSBURG, PA – Second quarter 2009 U. S. Government Printing Office (GPO) numbers show improvement in workflow to private sector printers compared to the first quarter of 2009 and the fourth quarter of 2008, but industry concerns continue about the lack of work being awarded to the private sector at a time when indications are federal government agencies are ordering more print than ever through the GPO. New administration print requirements, preparing for major legislation such as health care reform and gearing up for the 2010 census are some of the reasons for increased print demands from Capitol Hill.

The number of print suppliers obtaining GPO work during the second quarter of 2009 (April through June) was 1182 compared to 1112 during the first quarter of 2009. The value of the work awarded during the second quarter of 2009 was \$106,830,667 compared to \$77,771,624 for the first quarter of 2009. During the 4th quarter of 2008, the GPO awarded work valued at \$105,293,322 to 1263 private sector printers.

"While the numbers look better for the second quarter compared to the first quarter, private sector printers continue to be concerned about the long-term trend -- one that shows a significant drop in the amount of GPO work awarded to the private sector," said Deborah Snider, senior vice president of Government Print Management, a division of e-LYNXX Corporation. "Today, private sector printers vie for about \$420 million of GPO work each year, but that number was more than over half a billion dollars in 1992. Any decrease in GPO workflow to private sector printers is a problem because it undermines the quality work and competitive pricing that the private sector has historically provided to the GPO."

Title 44 of the U. S. Code, made law by Congress in 1813, requires that executive, legislative and judiciary branches of the federal government go through the GPO to obtain all of their printing. "This has made the GPO a model in procurement efficiency," Snider said. "However, the law does allow for waivers so agencies can produce their own print jobs and this is part of why workflow has slowed to the private sector. Too many waivers are allowing too many agencies to print jobs themselves, by-passing the print procurement system created by Congress."

Others in the industry point to the expansion of GPO facilities and internal capabilities as reasons for less work for private sector printers.

Of the 400 active GPO print suppliers, the most successful use a government print management firm that provides full representational services, accurate information, market intelligence, past price histories, and access to all available GPO solicitations. A government print management firm assists clients with paper work handling, specification interpretation, proposal preparation, bidding process management, assistance through the production process, change order negotiation, invoice preparation and collection, and cutting through the government red tape.

About e-LYNXX Corporation

e-LYNXX Corporation, the North American procurement authority, is exclusively endorsed by *Printing Industries of America (PIA)* and *Educational and Institutional Cooperative Purchasing (E&I)* and recognized as a top 100 procurement firm by *Supply & Demand Chain Executive*. Founded in 1975, e-LYNXX has three divisions. ● American Print Management provides enterprise print procurement solutions and patented competitive methods to reduce costs for direct mail, marketing materials, packaging and other procured print. Results include enhanced quality and service levels, efficiencies, process control, transparency and procured print cost reduction of 25% to 50%. ● Patented Procurement Method grants patent licenses for supply chain optimization. Results include substantial reduction in existing costs of competitively procured goods and services. ● Government Print Management offers U.S. GPO bid services, access and assistance. Results include filled downtime, operational stability, improved cash flows and increased profitability. www.e-LYNXX.com – 888-876-5432

TOP 50 GPO PRINT SUPPLIERS LIST FOR THE 2ND QUARTER OF 2009

| Rank | Company | Location | Winnings |
|-------------|----------------------------------|-----------------------|-----------------|
| 1 | RR Donnelley | Chicago, IL | \$18,583,492 |
| 2 | NPC | Claysburg, PA | \$7,187,544 |
| 3 | Gateway Press | Louisville, KY | \$5,359,653 |
| 4 | Monarch Litho, Inc. | Montebello, Ca | \$4,521,844 |
| 5 | SourceLink | Elk Grove Village, IL | \$3,589,794 |
| 6 | Cenveo | Stamford, CT | \$2,645,591 |
| 7 | P.A. Hutchison | Mayfield, PA | \$1,923,181 |
| 8 | McDonald & Eudy, Inc. | Temple Hills, MD | \$1,609,812 |
